## Objective

---

Dietitian turned developer, looking to utilize an eagerness to learn and a passion for coding to transition into a developer or engineer role. I have 10+ years of experience collaborating and communicating on successful teams and look to bring my drive and motivation to this new career.

## Technical Skills

---

Experienced: HTML, CSS, JavaScript, React, Git

Knowledgeable: TypeScript, Node.js, SQL, Python, APIs, JSON, Express, Bootstrap, Material UI, Redux

## Education

---

### Eleven Fifty Academy

Indianapolis, IN

Full Stack *Web Development Program*

May 2020 – Oct. 2020

24-week immersive learning program for Web Development taught with industry-guided curriculum, real-world project based learning, and 500+ hours of logged coding time and training.

### SUNY Plattsburgh

Plattsburgh, NY

*B.S. in Nutrition, with a minor in chemistry*

## Technical Projects

---

- Created a Full Stack macro/calorie calculator and recipe API using React for the front end along with Node.js, Express, and PostgreSQL to build the back end. This project is currently deployed on Heroku at: <https://macro-recipe-weight-client.herokuapp.com>
- Created a responsive website portfolio using HTML, CSS, JavaScript, and Bootstrap to showcase my skills to friends, family, and employers. <https://jflood215.github.io>
- A group project that utilizes Git, Typescript and React legacy code with class components along with Node.js, Express, Material UI and PostgreSQL to develop a Full Stack web app for music lovers. <https://redvinyl-music.herokuapp.com>

## Professional Experience

---

### Noom Inc.

Remote

Software Engineer Internship

Dec. 2020 – Current

- Worked on the front end of the Noom codebase as part of the growth and experiment team.
- Expanded my knowledge by working with Git, Redux, and other aspects of the Noom tech stack.
- Created an FAQ accordion dropdown using JavaScript, React, jQuery, Redux, and CSS.

### Noom Inc.

Remote
