## Objective

---

Dietitian turned web developer, looking to utilize an eagerness to learn and a passion for coding to transition into a Full Stack role. I have 10+ years of experience collaborating and communicating on successful teams and look to bring my drive and motivation to this new career.

## Skills

---

Web Technologies: HTML, CSS, JSON, REST API's

Run Time Environments: Node.js

Programming Languages: Javascript, Typescript

Databases: PostgreSQL

Frameworks/Libraries: React, Express.js

Methodologies: Agile

Version Control Tools: Git

## Education

---

### Eleven Fifty Academy

Indianapolis, IN

*Web Development Program*

May 2020 – Oct. 2020

24-week immersive learning program for Web Development taught with industry-guided curriculum, real-world project based learning, and 500+ hours of logged coding time and training.

### Virginia Commonwealth University

Richmond, VA

*Dietetic Internship Program*

December 2008

### SUNY Plattsburgh

Plattsburgh, NY

*Bachelor of Science in Nutrition*

December 2006

## Professional Experience

---

### Noom Inc.

Remote

*Virtual Health Coach*

July 2019 – Current

- Met and exceeded all expectations even as company growth exceeded 200% this year.
- Worked as a mentor to teach, train, and guide 18 coaches to be more efficient and skilled.
- Managed a high caseload consistently and efficiently from enrollment to completion.

### Lincare

Indianapolis, IN

*Senior Medical Nutrition Specialist*

Feb. 2009 – July 2019

- Worked as part of the highest grossing, and most successful enteral office in the company.
- Supported and managed multiple dietitians and offices in 6 states around the Midwest.
- Trained over 100 new dietitian hires on all clinical and insurance related aspects of the job.

## Projects

---

- Created a Full Stack macro/calorie calculator and recipe API using React for the front end along with Node.js, Express, and PostgreSQL to build the back end. This project is currently deployed on Heroku at: <https://macro-recipe-weight-client.herokuapp.com>
- Created a responsive website portfolio using HTML, CSS, JavaScript, and Bootstrap to showcase my skills to friends, family, and employers. <https://jflood215.github.io>
- Currently working on a group project that utilizes Git, Typescript and React legacy code with class components, along with Node.js, Express, and PostgreSQL to develop a Full Stack web app for music lovers.
